

Please refer to the School of Graduate Studies (SGS) [Leave of Absence Policy](#) and [Leave of Absence](#), and [Stop-Out, Withdrawal, & Failure to Register](#) sections of the SGS website.

Graduate students whose programs require continuous registration may apply to their Graduate Coordinator for a one-session to three-session leave during their program of study for (i) serious health or personal problems which temporarily make it impossible to continue in the program, or (ii) parental leave by either parent at the time of pregnancy, birth, or adoption, and/or to provide full-time care during the child's first year. Students experiencing financial difficulties should first contact the [SGS Graduate Awards Office](#).

Once on leave, students will not be registered nor will they be required to pay fees for this period. In general, students on leave may not make demands upon the resources of the University (including the GSU Health and Dental Plans), attend courses or expect advice from their supervisor. As an exception, students on leave for parental or serious health reasons who wish to consult with their supervisor or other faculty are advised to make special arrangements through their graduate unit. Students on leave will not be eligible to receive University of Toronto funding support. In the case of other graduate student awards, the regulations of the particular granting agency apply. The time limits for achieving candidacy and completing the degree program will be extended by the duration of the leave taken, i.e., one, two, or three sessions as appropriate.

Except for parental leave or in exceptional circumstances, it is not expected that a student will be granted more than one leave under the terms of this policy. Normally the start and finish of the leave would coincide with the start and end of a session. When students require a leave to begin in mid-session, they are advised to contact the [Director of Student Services](#) at SGS to make special arrangements.

Subsequent requests for leave and other non-standard leaves must be approved by the Admissions and Programs Committee of SGS, as well as the graduate unit, and will require a letter of substantive rationale written by the Graduate Coordinator and, if applicable, require supporting documentation (e.g., a medical leave request must include a medical certificate).

Note, international students will be assessed UHIP while on leave for the first four months. The UHIP policy only allows an international student to have one leave of absence (up to four months or one session) per academic year. If an international student requires a full year of leave (three sessions), they will not be covered under the UHIP policy for the latter two sessions; in such situations, international students are advised to source private health insurance to ensure coverage while on a leave of absence. International students who are planning to leave the country should contact the [Centre for International Experience](#) regarding their UHIP coverage.
