

STUDENT OFFICE HOURS

All instructors are required by the Faculty of Arts & Science to hold office hours for their students. Graduate student instructors should see the Departmental Office to receive their office space to hold office hours.

Please post an office hour schedule on your door and give a copy to the Departmental Office so that when students inquire about your office hours, we will have this information on hand. Any additional information you wish to provide about your regular weekly schedule will be very helpful.

Many students want to talk to their instructor during the period between when classes end and when the exam is held, so if you change your office hours during this time, please remember to let us know and to change the hours on your door. (We see many desperate students during this time.)
